## IN TRAINING FOR THE HONG KONG DERBY

### EARLY MORNING SCENES AT HAPPY VALLEY.

#### SOME OF THE LIKELY CANDIDATES.

[By "MORNING DEW."]

Just as all eyes in Britain are  
turned to Epsom on Derby Day and  
just as the American public awaits  
breathlessly for the result of the  
Kentucky Derby from year to year,  
so all eyes in Hong Kong are turn-  
ed to Happy Valley during race  
week, and to many local residents  
the results are far more important  
than anything which can happen  
either at Epsom or at Kentucky.

Weeks and months of preparation  
are necessary in order that ponies  
aspiring for Derby honours in  
Hong Kong may be fit for the race,  
and the scene at Happy Valley dur-  
ing the period of training, when  
the ponies are being put through  
their paces in the morning, is one  
which speaks volumes for the keen-  
ness of owners, trainers, jockeys,  
riding boys and stable hands.

At a time when most people are  
still in bed, Happy Valley presents  
an animated scene. Even in this  
cold weather the aspirants both for  
Derby honours, and lesser prizes,  
are led from the Jockey Club  
stables at Causeway Bay to the  
stable adjoining the grand stand at  
Happy Valley before sunrise. At  
5.30 a.m., when it is still completely  
dark, the clatter of a long  
procession of race ponies can be  
heard on the road until well after  
eight o'clock.

Mafoos, riding boys and trainers  
all find their way to the race  
course before 6 a.m., and owners,  
jockeys and a large number of  
racing fans arrive well before 7  
a.m. so as to miss nothing of the  
morning's work.

With only one race course in the  
Island, all ponies engaged in local  
racing are trained where they will  
race. There are two tracks, one  
turf and one surfaced with a  
mixture of shingle and sand. It is  
on the latter that most of the train-  
ing is done, but the Stewards of  
the Jockey Club, from time to time,  
give permission to use the grass  
track.

#### Before Daybreak.

Before daybreak many ponies are  
already in the paddock and quite  
a few are on the sand track. Few  
are galloped at this early hour,  
those on the course being animals  
which have been exercised the pre-  
vious day. A few trainers make it  
a point to send out some of their  
candidates at the earliest possible  
moment, but the reason is rather  
obscure.

With the first glimpse of day-  
light there is a steady stream from  
the members' breakfast room to the  
paddock and the rails. Generally  
the first to appear is an enthusiastic  
jockey, anxious to get through a  
long list of mounts. Next one can  
expect a leading owner, determined  
that his stop watch shall not miss  
any of the gallops of the morning.  
Next there might arrive a "kiss  
backer," interested in the progress  
of every horse, for he cannot let  
a meeting go by without trying his  
luck. And so the number swells  
until by about 7 o'clock there is  
quite a gathering. Meanwhile  
ponies are taken out on to the sand  
track, some are trotted round,  
some are cantered, and some are  
galloped while the eager eyes of  
the watching crowd take in every  
detail of what is going on.

#### 400 Ponies.

On Wednesdays and Saturdays,  
just now, more gallops are seen  
than on any other days and the  
attendance is bigger than on other  
days in the week. There are now  
four hundred ponies in train-  
ing, about eighty being griffins  
specially brought to Hong Kong for  
the Derby. To Hong Kong race-  
goers the Derby is the race of the  
year and the form of the griffins  
is followed with breathless interest.

In addition to griffins, for which  
members of the Jockey Club sub-  
scribe, there is a slightly inferior  
class of ponies, which are raced  
as subscription griffins. These are

## "CLING TO LITERATURE."

### LIKE A SHIPWRECKED MAN TO A RAFT.

The view that in this modern world we should cling to literature as a man would cling to a raft in a shipwreck, was expressed by Mr. J. B. Priestley, speaking on "Literature and the new age" at a luncheon at Grosvenor House, Park Lane, London.

Literature was never more necessary to civilisation than at the present time, he said. During the last ten years those whose trade was the making of books must have often felt that they were engaged in a vain thing. The times were out of joint, everything was unsettled, the world was a melting pot, and it did not seem the time at all for the writing of novels, plays and essays.

In literature, however, an individual found himself and in a modern world where there was a great danger of the individual losing himself, we had to cling to literature as a man would cling to a raft in a shipwreck.

"One of the great changes of post-war days, added Mr. Priestley, was mass production, which had swept all over the world from America. In that system it was obvious that the machine was more important than the man. Another development was Fascism and Communism, which clarified the State at the expense of individual liberty and action and thought, and the State became more important than the collective importance of its inhabitants.

If the world became a place where the individual disappeared, where the hopes and fears of private persons were no longer of the slightest importance, and in which a person was a function in a community and nothing more, he was sure that a humanistic and liberal literature would survive. So long as it did survive there would be space and opportunity for a man to dream his dreams.

## HOME FOOTBALL RESULTS.

## MOVIE NEWS

ON THE SCREEN IN HONG KONG.

THRILLS AT THE  
"QUEEN'S."A FINE BRITISH  
PRODUCTION.

"The Man They Couldn't Arrest," which opened at the Queen's yesterday, brings to the screen one of the cleverest of "Seamark's" stories. It is a strong drama, which loses none of its virility from the fact that it contains only one feminine role—and only one death. Its strength resides in the plausible ingenuity with which the successive stages of the hero's evasion of the police are developed in the swing of the story movement and after absence of padding, in the mounting suspense and excitement.

Its atmosphere is thoroughly British, the scenes in Kingsway, London, striking a pleasantly familiar note, and the picture may fairly be regarded as one of the cleverest-told, best-knit and most convincing films of its type that have come to the screen, as well as a distinct score for the home studio.

A brilliant cast enacts the various roles—Hugh Wakefield as the elegant, monomaniac and slightly stammering hero who avoids arrest in order to present the police with the real murderer they are after; Gordon Barker, in a characteristically rich interpretation of the Cockney type; Nicholson Hansen, in a promising film debut as the double-living Lyle; Garry Marsh, as the police inspector; and Robert Farquharson, in a not too flimsy rendering of the part of the villain they ought to have arrested. Miss Renee Clama, the solitary woman in the play, supplies the love romance engagingly.

The talkies, taking cognisance of blonde attractiveness and the excitement she had stirred among the critics by her Broadway debut, gave her an opportunity to play opposite Ronald Colman in "Bulldog Drummond." For a while after the picture was finished it seemed that she would have to return to the stage. But soon after she was given a hearty invitation to stay.

She signed a long term contract and was given the feminine lead in George Arliss' picture, "Disraeli." Later, when Harry Richmond made his screen debut in "Tut in 'On the Ritz," he asked that she be his leading lady.

Heading the supporting cast are Owen Moore, Myrna Loy, C. Henry Gordon, and Douglas Cosgrove. Sidney Langford directed.

## HARMSTON'S CIRCUS

OPENING AT KOWLOON—MON. NIGHT, JAN. 25

30 EUROPEAN ARTISTES  
60 NEW BIG ACTS  
50 PERFORMING ANIMALS

## HARMSTON'S CIRCUS

MANILA SAW IT AND  
APPROVED.

Harmston's Circus which opens on January 23, to-day week, on the gates of ground to the east of the Peninsula Hotel, Kowloon, has had a very successful season in Manila. Audiences in the Philippines capital were impressed by the fact that Mr. W. Harmston the proprietor, seems to understand the nature of animals. The programs is interspersed with many items in which elephants, horses and ponies take a prominent part. The program is moreover run through without any waits between the acts.

Among the best numbers given in Manila were those by Mr. Delroy and Chocolate who gave exhibitions of club and hoop juggling; Miss Millie Williams a graceful and clever trick rider, dancing, posing and jumping over obstacles on the back of a galloping horse; a very pretty and graceful Dance by five ladies of the company and by Mr. Trunks, in his contortion act, who seemed as if he had not a bone in his body.

The gem of the evening was considered to be the act provided by the celebrated Palomar Family and as an exhibition of skill and courage, their acrobatic feats were enough to make the most hardened circus-goer sit up and take notice.

The animal numbers included clever tricks by "Silver," an Arab stallion, and by eight Australian horses trained and introduced by Mr. W. Harmston, one of the horses gave a fine exhibition of what a horse can do with a football. Mr. Harmston also introduced his two performing elephants and the act they provided gave evidence of the skill of their tutor.

The comedy elephant Jumbo introduced by Clown Billie was very amusing. The final act was a number of Lions, Tigers and Leopards let loose in a large steel cage in the centre of the ring and their trainer, a Turkey, putting them through various tricks.

ACTRESSES "REAL  
TEARS."HEROINE OF "THE MAN  
THEY COULDN'T ARREST."

For one scene in "The Man They Couldn't Arrest," the British thriller which commences to-morrow at the Queen's, Miss Renee Clama had to cry, and did the fearful business so well that she was still crying some minutes later when an interviewer sought a word with her in her dressing room. Between sobs she admitted that she was enjoying the picture immensely—and she was perfectly sincere! Miss Clama has an exciting part in this most unusual of dramas, seeing that her lover (Hugh Wakefield) was instrumental in discovering her father's associations with a notorious gang.

## A BRITISH "CRIME" FILM.

STEWART ROME AS  
DEFENDING K.C.

Half-a-dozen British screen stars of the silent days reappear in "Deadlock."

This is the story of a young man (Mr. Esmond Knight), who refuses to clear himself of a murder charge so as not to involve his fiancée (Miss Janice Adair), whom he imagines is a suspect.

The murder is committed in a film studio, and the discovery of the culprit is excitingly worked out, but the fault was that the whole thing was rather too obvious. Mr. Stewart Rome, as counsel for the defence at the trial, gives a capital performance and is well supported by Miss Annette Benson, Mr. Warwick Ward, Miss Alma Taylor and Miss Marjorie Hume.

MILLIONAIRE'S YACHT AS FILM  
SETTING.

## ELSTREE IN LAVISH MOOD.

The most luxurious modern yacht, commissioned expressly for a millionaire who died before the craft was launched, has been reproduced for the setting of the new B.I.P. film, "Brother Alfred."

The action of the film, which is directed by Henry Edwards, from the story by P. G. Wodehouse and Herbert Westbrook, takes place on board a yacht which is cruising in the Mediterranean under the ownership of an American millionaire. To secure the finest possible model the Elstree art director searched among the most modern and palatial craft afloat, from the luxury yachts of Royalty down to the trim and workmanlike boats of sports enthusiasts.

The yacht which met with the approval of both Edwards and the art-director was built at a cost of

£25,000. The saloon, cabins, bath-rooms, and deck of the yacht have produced identically and to scale on the studio floor at Elstree. A ship-building carpenter was engaged for a week in laying the timber on the deck, and this part of the deck with its fittings, awnings and marine gear is correct to the last rivet.

The interior is carried out in unpainted timber, embellished with chromium-plated rails and fittings. The furnishings are in polished steel and leather, while the lighting is concealed in the walls, under the floor and in the ceiling in settings of ultra-modern design.

Scenes will be taken of a party in progress on the yacht, which will be decked for the gala with myriads of fairy lights.

UNITED STATES ACCEPTS  
JAPAN'S APOLOGY.

Washington, Jan. 7.—Col. H. L. Stimson, the Secretary of State, announced to-day that the United States Government has accepted the Japanese apology for the rough treatment which Mr. Culver B. Chamberlain, a member of the United States Consular Service, received at the hands of a Japanese soldier in Mukden a few days ago.

This closes an incident which at one time appeared likely to lead to considerable friction as when Mr. K. Debuchi, the Japanese Ambassador at Washington, first expressed regret on behalf of his Government for what had occurred. It was intimated that the United States Government would wait for further details from Manchuria before deciding whether the apology should be accepted.

The general impression then created was that the United States Government was not altogether satisfied with the Japanese reports of the affair, but the official announcement to-day shows that all misunderstandings have now been cleared up.

Mr. Chamberlain was proceeding in a motor car to the railway station at Mukden when he was accosted by two Japanese sentries who demanded his passport. A Japanese interpreter apparently failed to interpret the demand correctly. Some difficulty arose and finally one of the sentries struck Mr. Chamberlain on the head. The interpreter has been dismissed and the punishment of the sentries concerned in the matter is under consideration.

**SOVIET LABOUR**  
DISCIPLINE.

HIGHER PRODUCTIVITY  
AND GREATER ECONOMY.

Moscow, Dec. 6.—A tightening of labour discipline everywhere in Soviet industry has been ordered by the Kremlin. Higher productivity of labour and greater economy generally are the objectives.

A decree issued by the Supreme Council of National Economy, signed by the Vice-Commissioner, Comrade George Piatkov, points out that in many trusts wages are being raised and new working hands hired recklessly. It promotes new regulations under which such expansion must be sanctioned by the Supreme Court. Wage raising is normally forbidden unless the production plans of the trust are being carried out properly.

The abandonment of the unbroken five-day week is in line with the general insistence upon higher production. It obviously means one day of rest out of every six instead of one in five as heretofore. At the same time, measures have been taken to give the central authorities better control of machinery and equipment in the country, much of which has been spoiled or mislaid. All industries everywhere in the Soviet Union. (Continued at foot of next column.)

have been ordered to make a complete inventory of their machinery and equipment for the Moscow officials. Every item in this mammoth national inventory will then be provided with a "passport" recording its history and productivity.

The government will be able to find out what is going on in a machine as easily as it now can locate a human being.

## CONSUMPTION HAS BEEN CURED.

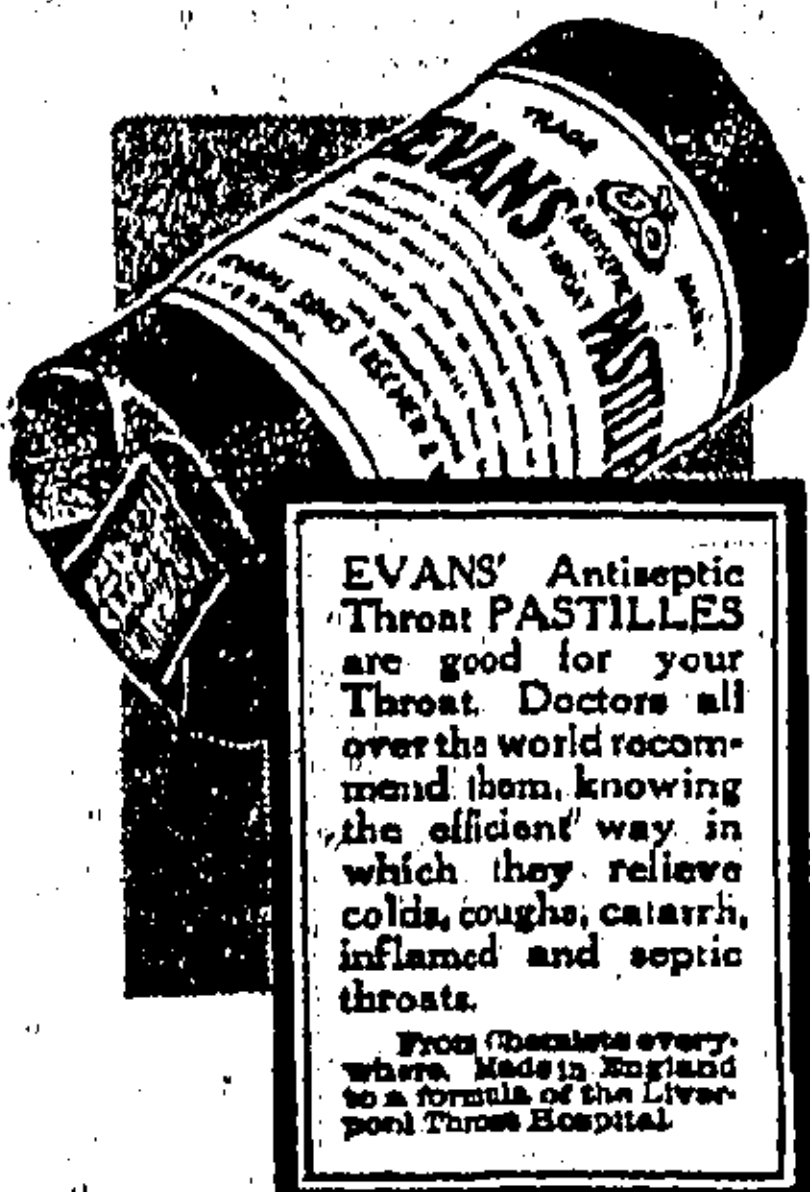

A REMEDY FOR CONSUMPTION HAS BEEN FOUND.

DR. P. FINKELMAN, DISCOVERER OF THE NEW REMEDY FOR CONSUMPTION.

Marvelous as it may seem after centuries of failure, a remedy has been discovered that has cured the deadly consumption even in the advanced stages of the disease. No one will longer doubt that consumption can be cured after reading the proof of hundreds of cases cured by this wonderful discovery—some after change of climate and all other remedies tried had failed, and the cases had been pronounced hopeless of cure. This new remedy has also proved itself effective and speedy in curing Catarrh, Bronchitis, Asthma, and other serious throat and lung troubles. In order that all in need of this wonderful product of science may test its efficacy for themselves, a company has been formed to give it to the world, and a Free Trial Treatment can be obtained by writing the Dr. P. Finkelman Co., Ltd. (Dept. C. 287) 181/182, Fleet St., London, E.C. 4, enclosing 6d. in British Postal Order to cover cost of carriage and packing, and mentioning this paper. The trial treatment will then be sent by return mail carriage paid.

**ABSOLUTELY FREE.** Do not wait if you have any of the symptoms of Consumption, if you have Chronic Catarrh, Bronchitis, Asthma, Pain in your Chest, a Cold on your Lungs, or any Throat or Lung Trouble, write today for a free trial treatment and book of instructions, and benefit yourself before it is too late.

## WINTER OLYMPIC GAMES

FACED WITH FAILURE

(Reuter's Special Service.)

New York, Jan. 16. The turn of the thermometer threatens the Winter Olympic Games, which has been arranged to be held on Lake Placid, Adirondacks, from February 4 to 13, at which America has spent half a million dollars, and at which starters, skiers, ice hockey players, and curlers, from 17 nations are now assembling.

The lake is as calm as a mirror. There are no iceless ski jumps and a snowless bob sleigh run. The latter, which was constructed at a cost of \$200,000, is now more like a water course as the result of the unprecedented thaw which has overtaken the North American Continent.

Unless the temperature drops quickly the whole Olympic Games will be faced with failure.

## ST. LAWRENCE RIVER POWER PROJECT

AMERICAN PARTNERSHIP NOT WANTED

(THROUGH REUTER'S AGENCY.)

Quebec, Jan. 15. Long-cherished plans for the joint development by Canada and the United States of the St. Lawrence River to provide hydro-electric power and to give ocean-going vessels access to the Great Lakes, have been set back by a negative vote of 31 to 7 in the Provincial Legislature.

The voting was the result of a vigorous attack by the Premier, Mr. Taschereau, who stated that it would be a national crime to develop the St. Lawrence power project with the Americans.

He added: "Canada should not become a partner with the United States in sharing the water power developments of Canada's heritage for the benefit of American industries."

## MIDNIGHT RESCUE ON RIVER

POLICE CUT THROUGH BOAT TO SAVE CHINESE.

Shanghai, Jan. 16.—With a battery of searchlights from H.M.S. Cornwall focussed directly on the scene, members of the River Police shortly after midnight last night staged a thrilling race with Death with the life of a Chinese boatman at stake—and won!

The incident came as the result of a midnight collision on the Whangpoo River, off the foot of Canton Road, between a small Chinese steamer and a loaded native cargo boat, on its way to Shanghai from up-river. Four of the five members of the crew of the junk were thrown into the water by the crash, but the fifth was trapped under the hull of the little vessel which capsized.

A launch from the Pootung Station of the River Police reached the scene in time to save the lives of the four men in the river, but there seemed no way to reach the unfortunate fifth man before the air under the hull could escape and allow the space to fill with water, drowning him. With each moment vital, the police sent for axe and saws, with which they sought to cut a way through to the imprisoned man.

Minute by minute the water crept up on the prisoner as the air leaked out. Minute by minute the police toiled and hacked at the hull, with the crew of the Cornwall urging them on. Finally when the life of the imprisoned boatman hung on seconds, the police broke through the stout timbers and lifted the man to safety, exhausted but alive.

He was rushed to the Pootung Hulk where restoratives were administered and will be none the worse for his adventure, it is declared.

The Chinese steamer which struck the junk plies from Shanghai to the islands nearby. The cargo boat was loaded with wine seed and stores all of which was lost.—N. C. Daily News.

## SAFETY IN THE AIR.

LOCAL REGULATIONS.

Important and far-reaching regulations regarding aerial navigation in Hong Kong are contained in the current issue of the Government Gazette.

Requirements in regard to air worthiness of machines are set out, together with the equipment they must carry, while lengthy rules are given regarding the qualifications of personnel.

Regarding British machines, it is laid down that such craft flying on a regular scheduled service and any craft of the Hong Kong Flying Club shall not fly unless it has within 24 hours of the commencement of the flight been inspected and certified as safe for flight.

Details are also given of points to be covered in log-books, while stringent regulations are given for the medical examination of pilots, ground engineers and operating crew.

The aerodrome scheme at Kai Tak is practically completed. The hangars are ready for occupation and the aerodrome law-out is in the final stages of preparedness.

## "KID" PATTENDEN'S NEW FIGHT.

HOW HIS SIGHT FAILED.

LOOKING FOR WORK AFTER LEAVING THE RING.

London December 14.—A young man of 21 tried with uncertain steps to cross Lordship Lane, Wood Green, N. A tram pulled up smartly and a shopkeeper shouted, "Look out, Alf!"

"Alf," side-stepped smartly, put one hand to his eyes, and gripped the driver.

"Alf" is "Kid" Pattenden, ex-bantam boxing champion of Great Britain, who fought his final fight last night. He has given up boxing because blindness threatens him if he continues in the ring.

To-day, drammers, buses, everything he sees, double themselves, and there is a rattling pain in his head.

"Alf" has had five brilliant years in the ring. Specialists warned him a year ago of the danger of continuing. But he was loth to give up.

He and Miss Grace Woodhead, the daughter of a furrier, have been engaged for three years. She did not like boxing, and he agreed that it would be too great a worry for her to have a boxer husband. He decided to box and save for a home, but has had to abandon the effort.

He was not discouraged when I saw him to-day. He is unphooping his reputation as a fighter by spending the day in searching for work.

"I hate giving up boxing, but I had to for Grace's sake," he said. "I should go totally blind if I continued. Last night I could not see anything from the fifth round, and the referee stopped the fight."

He told me the story of his career, and of the eye trouble.

"I was a cheeky kid of 14, mad on boxing, when I pushed my head through the door of a training hall. Someone said, 'What are you looking for?' and I replied, 'A fight'."

"They invited me in and put me up against Jack Canons, an amateur club champion. He did what he liked with me, but they saw I had grit. They made me join the club, and when I was 15 I won the Working Lads' Federation championship, which I held until I was 18."

Then a Champion.

"A Premierland official invited me to become a professional. With luck I took everything before me. When I was 19 I was bantam-weight champion of Great Britain, defeating it successfully against Jehnnie Brown and Kid Nicholson. I knocked them both out in the 12th round."

"I had offers from America then to fight Archie Bell. Then Teddy Baldock took the championship from me in a fight which was the talk of the boxing world. Soon afterwards I met Nel Tarleton. In my opinion he was better than Baldock or myself."

"My eye trouble began in one of my matches with a right to the head. After the first few rounds I could not see my opponent. That was two years ago."

"Now when anyone calls me from the other side of the road I have to look twice before I recognise who it is."

But I am not grumbling. This eye trouble is a knock on the chin—that's all."

"Alf" is no more likely to be floored outside the ring than he was inside it.

A Harley-street specialist explained:

"Continual blows to the chin jar the optic nerves by way of the nerves connecting the jaw with the base of the brain. One heavy blow—although rare—will bring on blindness."

## AN ACCIDENT TO H.M.S. BEE.

FOULED BY TUG DURING HEAVY WEATHER.

Hankow, January 8.—The spell of exceptionally fine and warm weather came to an unexpected end on Wednesday, when during the morning the wind veered round towards the North, and a very strong gale lashed the river into veritable seas.

It has been a long time since such waves have been seen here, and the suddenness of the change took everybody by surprise, and the river took its usual toll. Hulks and pontoons were battered, the tenders being smashed to smithereens by the craft lying alongside, all being tossed about like corks.

What might have proved a serious affair occurred to H.M.S. Bee whilst lying alongside the Lystrygon Hulk. A B. & S. tug had been tied up at the stern of the Bee, and the fuses dampened down. When the gale swept up the river the tug was forced round on to the stern of the Bee and before anything could be done, it had damaged the rudder, and holed the Bee just above the water line.

It took some little time to get a line to the neighbouring hulk, and to swing the tug back alongside the Lystrygon and to make fast during this period the Bee was in constant danger of being seriously damaged, and possibly sunk. The tug itself seemed to have had the better of the encounter, as it apparently suffered little damage. It was, however, in danger of turning turtle, as waves were breaking right over the gunwales, and she was rolling to an alarming degree. With the assistance of H.M.S. Caradoc which was lying on the other side of the Hulk, temporary repairs were made to H.M.S. Bee.

The Communist menace is making itself felt more and more every day, as strenuous efforts are being made to reform labour unions. The people, however, are very loth to support these, as they had their experience in 1927, and realise that they are not for their own benefit, but that they make conditions even worse for them.—N. C. D. N.

## MERRY MASQUERADER.

SEE ERNEST LOTINGA FILM FARCE FREE OF COST.

Ernie Lotinga's escapades in "Dr. Jessor, K.C.," his latest farce include a masquerade as a French maid, and an exact duplicate of Joan Wyndham's dress, with white lace and georgette apron and bandeau. But this is only one of his impersonations in an irresistibly funny series of adventures, and the whole entertainment is a certain antidote to depression.

## TRENTBRIDGE'S EXCELLENT GALLOP.

MRS. PEARCE'S IRON GREY PONY SHOWS SURPRISING FORM:  
LIKELY DERBY WINNER.

GOES OVER FULL DISTANCE IN 3.19.3.

[BY "MORNING DEW."]

There was only one gallop of note on Saturday, but it was an outstanding one which is not likely to be eclipsed during the present training season. Mrs. Pearce's Trentbridge was sent out over the full Derby distance on the sand course and he lapped up the quarters as though he could never tire. Going over the first quarter in 38 seconds, the pony finished the last mile and a quarter in 2 minutes 41.3 seconds taking 30.3 seconds for the last quarter.

Trentbridge will be the talk of the racing community from now on, until the Derby is decided. There seems to be very few ponies of his class in training. Though I would not like to say that he is going to win the Derby, I should think he is sure to get a place. Judging from the easy manner in which he took his trial run, it is evident that the pony could have done even better had the first quarter been a little faster. With the assistance of such an able jockey as V. S. Chang, there is little doubt that Mrs. Pearce's candidate has a strong claim on the Derby.

At the present moment, the only ponies which are likely to turn out during training in the same class as Trentbridge are Liberty Bay, Devon, Navy Hall and Gold Mine. Outstanding among these is Liberty Bay, but it is not likely that this pony will go bursting stop-watches in his early morning gallops. Liberty Bay has the makings of a Derby winner and if nothing goes wrong with him, even if he does not show any surprising gallops, look out for him.

Sunlight, ridden by Mr. Frost, covered three quarters of a mile in 1.33 and finished ever so strong. He went out with City of Shanghai, and the two ponies were tearing up the straight when the latter kicked against the starting gate at the mile post and threw his riding boy, who received a nasty bump.

## DAY OF BIG DIVIDENDS

SHANGHAI BEAU CREATES RECORD  
BY PAYING \$528 FOR A WIN.MR. IP RIDES HSIN SUI WOO TO VICTORY  
AND PAYS OVER \$100.

Although the attendance at the Aoria Prota course yesterday left much to be desired, the racing itself was by no means devoid of interest as big dividends were the order of the day.

The opening race fell to an outsider which paid over \$60 for a win, but in the next race, Mr. Ip Kui Ying brought in Hsin Sui Woo to pay over \$100 to his supporters.

More surprise, however, were in store for punters, as in the fourth race Shanghai Beau won from a field of eight to pay a record dividend for Macao of \$528. There were only three backers of that pony. The winner was ridden by Mr. Rees, one of our most promising novices.

## ORLANDO WINS THE MAIN RACE.

There were six starters in the opening race of the day and Silver Key and Sunning commanded most of the support.

Silver Key led over the first half mile of the race, then gradually dropped back to allow Bay of Bellingham II. and Brown Eyes to lead in turn. Fung on Brown Eyes rode beautifully to win by four lengths eventually from Sunning, ridden by Mr. Charles. Bay of Bellingham and Silver Key fought for third place all the way up and the verdict went to the former.

The winner paid over \$50 to each of his supporters.

## Wellhalwei Plate.

After giving a good deal of trouble by refusing to start, Hsin Sui Woo, ridden by Mr. Ip, got well away with the field. He was under whip all the way and to the surprise of everyone managed to win by a neck. The pony was asked for a big effort in the straight and it responded beautifully. Lightship finished second and Arminius, ridden by Mr. Benham finished third.

The winner paid his supporters over \$100 per ticket.

## Hong Kong Handicap.

After two favourites had disappointed, Orlando obliged with a win in the third favourite where a field of four started. King's Counsel was badly left at the start but in spite of that he was sent to the van, but spent himself after half a mile. Orlando then took the lead and won as he liked. The Gomeril came along with a rush in the straight and robbed King's Counsel of second place.

## Peiping Handicap.

Blue Heaven was much in demand in the fourth race where there were seven starters. The race fell to a rank outsider in Shanghai Beau ridden by Mr. Rees. Cream Cracker and Edenbridge made the pace, but faded out of the picture before the straight was reached, when Mount Elburz took the lead. Shanghai Beau came along with a big turn of speed in the last furlong to win by half a length. Tango was third. The winner paid \$528.30.

## Chefoo Handicap: Second Division.

Heliotrope, Leaf, ridden by Mr. Charles, won this event much as he liked. Sunny Day led the field, but had to give way to both Heliotrope Leaf and Country Club before the straight was reached. The last named made a big effort to catch up with Heliotrope Leaf, but the winner was in fine fettle and did the mile journey in good time.

## Wellhalwei Plate.

Pure Music won this race from the fall of the flag. He shot out from the bunch and remained in front throughout, finishing in a canter. Five lengths ahead of the Slow Bird who was second. Matsushima, who had to contend with a bad start was third.

## Chefoo Handicap: Third Division.

Mr. Harriman brought home Blue Plane in the last race of the day and another Macao Subscription Griffin, Silver Arrow, ridden by Mr. Ip Kui Ying finished second. As You Like It scrambled into third place just ahead of Celerity. The winner paid \$37.80 for a win.

## THE PHOTOGRAPHIC EXHIBITION.

TO THE EDITOR OF THE "HONG KONG DAILY PRESS."

SIR,—The aim of my society has been and will always be the education of our members and those interested in photography.

Snaphocter wants pictures judged by public votes. This is not the procedure in any national salon of importance such as the Lohden Salon or the Royal Photographic Society's Exhibition. To appreciate the finer points of a picture requires years of training in the art of pictorial composition. Hence the proper judging of a print can only be safely left in the hands of competent judges.

The disordered grouping of pictures were done so for the following reasons:—

1. To prevent the recognition of pictures of the same competitor by the judges and thus ensure a fairer judgment of the prints.

2. To induce the visitor to the exhibition to look through every picture instead of having a rapid glance at the prize-winners and go away satisfied. The aim of the Club in holding an exhibition is the education of the public to an appreciation of the good and bad qualities of the pictures, hung. This cannot be achieved if the prize-winners were grouped together. This has been the experience of the Club during its past three exhibitions.

Pictures were placed at a high or low level to show them at their best, and big enlargements without pictorial qualities do not count in our exhibition.

It has been the experience of the Club for the past three years that not every competitor is the best judge of his own pictures. There is always a chance of his keeping back pictures which are better than those sent in. This is the reason why there is no limit in numbers to prints sent in by any competitor.

Yours, etc.—Ling Kodiah.

NO DANGER TO THE NEW CUNARD.

EFFORTS STILL BEING MADE TO SECURE WORK RESUMPTION.

This was the statement made to the Evening Standard by an official of the Cunard Company in connection with the suspension of work on the giant new Cunarder 534. He added:

"Some mention has been made of the possibility of the hull of the new ship sinking into the ground because of its enormous weight. This is entirely a matter for the builders, but in the opinion of the Cunard Company this cannot take place for some considerable time, and before then we hope to have restarted."

On this point the secretary of Messrs. John Brown and Co., the builders of 534, said today:

"A limited number of men will be kept on duty as a maintenance staff to look after the vessel until work is restarted."

## SWATOW STUDENTS' STRIKE CONTINUES.

## GOVERNMENT FORBIDS STUDENTS' PARADE.

## THE "RED" SCARE.

(From Our Own Correspondent.)

SWATOW, Jan. 14.

Up to the time of writing there have been no material changes in the strike situation. The authorities do not appear to be keen on forcing an early settlement, and I am authoritatively informed that it is immaterial to them if the students care to prolong the strike for months or even years, because, in the long run, only the students will suffer.

On the 11th there was a gathering of students in the Union School to arrange a parade the following day. A resolution was passed to hold the parade but it did not take place owing to the ban by the authorities who threatened drastic action.

Last Monday in the premises of the same school a representative meeting was held to discuss the situation. The opinions expressed were conflicting. Some schools desired to carry on the strike until the matter is "properly settled," while others, in view of the big attendance at the schools every day, wished to resume study pending a settlement through the Students' Association. As nothing definite was decided a second meeting was proposed for today.

## THE "REDS."

"News of approaching 'Reds' is causing no little concern. As a result, it is said, the local garrison will be augmented by one more division. If the situation becomes more alarming we are likely to see curfew and martial law again proclaimed."

## YUNNAN OPIUM CROP.

## RETIRED WAR LORDS PLAN EASIER SUPPLY.

(From Our Own Correspondent.)

CANTON, Jan. 17.

A report is current here that a number of retired generals are attempting to form a syndicate, whose object is to divert the traditional routes of the Yunnan opium traffic down the West River.

The proposed plan is said to be to establish a distributing centre in Tongking, and to ship the opium from there.

This means that South China will be able to get more and cheaper opium. Popular opinion is very disturbed at this report, though, of course, the Annamite authorities would not allow abuses of that kind in their territory.

HONG KONG, JANUARY 18, 1932.

## THE OGRE GROWS.

Leon Trotsky, the ogre of Europe, is trying to make our flesh creep. He scents blood: he should know the smell. He prophesies devastation and war: he is a great expert in destruction, and the creator of the Red Army, no doubt sees himself as the Second Horseman of the Apocalypse: "And there went out another horse, that was red: and it was given to him that sat thereon to take away peace from the earth, and there was given unto him a great sword." Mr. Trotsky as a good atheist no doubt studies his Bible in his lonely exile, feeding his imagination on the denunciatory portions.

The key to the position is, in fact, that Mr. Trotsky is an exile. His own countrymen will not have him. No one wants him; though at the moment Germany is allowing him to take the cure at several spas. After his recent outburst when he is recalled to take up his old power, Lord Macaulay's *History of England* contains a famous passage analysing with bitter insight the mind of the political exile—his hopes, built upon chance words and flattery of former friends; his exaggeration of past prosperity when he was in power, and of present ills under his successor, his estimate of himself as still a major piece in the game, whereas he is at the best an isolated pawn.

Trotsky is now an old man and an invalid. Like Napoleon at St. Helena his day is done. Before the war Trotsky, or BAUNSTEIN, was a member of that curious political underworld fighting and planning revolution, mainly in Russia, but working everywhere like moles, to undermine, and finally overthrow the fabric of civilisation. These furtive conspirators were known to the police and to the inner circles of the political world, and, like ordinary criminals, they were generally suppressed and persecuted, but sometimes used as two-edged tools, by the governing authorities. We all know how they were able to seize power in Russia, and to keep it by effecting an alliance with their old enemies the secret police, with the minor officials, and certain sections of the Army.

The colossal irony about Trotsky's later career is that he was ejected from Russia by STALIN for opposing the modifications in "pure communism" allowed by Lenin and continued by STALIN. But, having driven out Trotsky, STALIN at once embarked upon the Five Year Plan, a policy after the heart of his dethroned colleague. No wonder Trotsky is bitter, and as the militarist of communism, he thinks in terms of war and destruction on a scale that reflects a diseased imagination. His ideas do not merit serious examination. They have nothing to them beyond the momentum of a past notoriety. A Fascist Germany would be more occupied with France than her Eastern neighbours. Who but a madman would see a possible alliance of Germany with Poland, Rumania, the Baltic States and Japan? It is an old obsession, of Soviet leaders, still fostered among the common people of Russia, that there is a world alliance of capitalist Powers to overthrow the Soviet. It is a theory that can easily be thrust down the throats of ignoramuses, but the fact is that the Powers are, while very suspicious of each other, desperately anxious for peace. The Manchurian crisis has shown that no nation has any intention of being drawn into war with a dangerous antagonist.

## A LINER'S LONG WEEK-END.

That ill wind which cannot avoid bestowing some benefits in the course of its generally unacceptable attack has been at work on the great passenger services of the Atlantic. Those services are heavily hit by the world slump—but if they were "working to capacity" there would be no chance of the modest trips on great liners which are now announced as part of next year's programme for the Cunarders. Next Whitsuntide the Mauretania will be withdrawn from the Atlantic service for a week and will set out from Southampton for a five-day trip to Gibraltar and back with about 350 first-class passengers, whose fare for the "round tour" will range from eight guineas. Eight guineas for five days in the seats of the mighty sounds an attractive proposition. It is true that there will not be much time ashore—a Tuesday morning in Gibraltar is about as much as the voyagers can expect, but it is something to have seen the famous Rock and something more to have seen it as a first-class passenger on an equally famous liner. Milkmaiden and film stars may smile a little wearily at such ingenuous interests, but it is the fun of being on a big ship at all that will make the fortune of this enterprise. As cruises go it is not so extensive as plenty that are now offered as summer holidays for people of modest means, but in this case it will be not the mileage but the manner of travelling that counts. For once in a way the millionaire's playground will be chartered for the world and his wife; democracy may go down to the sea in ships that have been built as floating palaces. They may be back again within "little more than a long week-end, but the experience will be authentic and presumably not without its attraction.

## Tale of the Day.

"Why do you put your dolls away so carefully, Moley?"  
"I am keeping them for my children."  
"But suppose you don't have any children?"  
"Then they will do for my grand-children."

## "Painlessly Shot."

The unconscious humour of an eye-witness account of the Soviet Utopia is delightful:  
"In Russia there is no unemployment; the people are healthy and carefree, and full of hope, going a bit short and working a bit hard, but confident that all the benefits of their work will go to themselves, and not be squandered by idlers in luxury hotels from Palm Beach to the Adriatic."  
"In Russia, though capital punishment has been abolished, such idlers are not endowed with millions before they are born; they are either set to work or are painlessly shot as not being worth their keep, and are not replaced."

## Our Helpful Scientists.

A distinguished scientist declares in a learned contemporary that he has discovered, after many years of research, that "the secret of scenic beauty is the enhancement which the landscape derives when the grouping happens to be harmonious, whether this be a matter of locality, as when physical features are harmonious, or of season, as when light or colour are happily blended or contrasted."

"After this profound observation," writes a London diarist, "I would like to record one of my own discoveries in connection with the problem of scenic ugliness. The secret of the whole thing lies in the harmonious grouping in the landscape of advertisement-boardings, petrol-pumps, and bijou residences for, in cases where these are in harmony, when the entire landscape is covered with a thick, yellow fog on a dark night."

## Shamrock V's New Owner.

Mr. T. O. M. Sopwith, by buying Sir Thomas Lipton's Shamrock V, has brought joy to the hearts of all amateur sailors. For there was great anxiety as to whether any sportsman would be prepared, in these present times, to undertake the expense of running a yacht of that type.

Added interest will be given to the big class racing, for Mr. Sopwith is one of the most skilled of yachtsmen. With Mr. H. F. Paul at the wheel of Astra and Mr. H. A. Andreae steering Candida, this will mean that three of the big cutters have amateur helmsmen.

## ★ Local Notes and Events ★

Two cases of diphtheria were reported on Friday.

At to-morrow's meeting of the Rotary Club, Rotarian W. E. L. Shenton will give an address on "The Institute of Pacific Relations."

The *Gazette* contains a list made by the Governor-in-Council of General Bonded Warehouses under the Liquors Ordinance, 1931, together with regulations relating to same.

Observatory returns for December show that the average mean temperature was 63.3, the highest being 75.3 and the lowest 41.7. There were 4.55 inches of rain and 144.3 hours of sunshine, while the average humidity was 72.

It is notified that at the expiration of three months the Tai Hong Steamship Co., Ltd., and the Yee Wo Restaurant, Ltd., will, unless cause is shown to the contrary, be struck off the register and the companies will be dissolved.

The committee in charge of the arrangements of the Hong Kong Army Area Boxing Tournament report that it has been decided to postpone the date of the tournament to sometime about the end of March. The original date was January 20.

According to a report made to the Police, four men armed with daggers made their way into 168, Portland Street, first floor, about 3.30 p.m. yesterday, and after binding and gagging the inmates, ransacked the place, taking away with them money and property to the value of \$215.

Sir Henry Pollock Kt., K.C., LL.D., whose term of office as representative on the Legislative Council of the Justices of the Peace expired on Saturday, has been re-elected unopposed and will resume his seat without an election. Sir Henry was proposed by Sir Shou-son Chow, and seconded by the Hon. Mr. W. E. L. Shenton.

The new owner has every reason to be proud of Shamrock V, for she is a wonderful craft. There are many who hold that she is really a faster boat than Enterprise, which beat her for the America's Cup.

## A Balkan Story.

A good story was told at the Billingsgate wardroom by Mr. F. W. Darch, one of the ward's best-known public men.  
"A short time before the war," he said, "I visited an important town in the Balkans. I was met by a gorgeously armed gentleman, whose uniform looked like that of our City Marshal."  
"He said he had just been elected chief executive officer of the town, and then remarked: 'The other man was a rascal—he stole 80 per cent. of the taxes, but I am only going to steal ten.'"

## President Hoover, Scapgoat.

Apparently the search for an American political scapegoat has led to a somewhat general concentration of "hate" on President Hoover, who is being made the victim of innumerable unkind stories. Here is the latest:

Mr. Hoover and Mr. Mellon are walking down the street, and the former asks his companion to lend him a telephone to a friend. Mr. Mellon's reply is terse: "I'll lend you 10c and then you can telephone to all your friends."

## A Party Reunion.

That is even more unkind than the cartoon that appeared the other day in a foreign paper, showing Mr. Lloyd George standing in his dining-room, where the table is laid for three.

## Harnessing the St. Lawrence.

An immense development of hydro-electric power is projected along the Canadian border. The work, if carried out, will be financed by the Governments of the United States and of Canada. The estimated cost of the scheme is \$25,000,000 dollars.

The project involves the reconstruction of the joint canal systems of the two countries. Between Lake Ontario and Montreal the St. Lawrence River can develop five million electric horse power, of which four million will belong to Canada and one million to the United States.

There is a strong body of Canadian opinion which believes that no portion of this four million should be exported, but that the whole of this power should be reserved for the use and extension of Canadian industrial interests.

## Commissions and Committees.

The latest return shows that there are now, in being thirty Royal Commissions and Government inquiries, investigating all sorts of things, the oldest of them having been appointed as long ago as the 6th July, 1927.

Our old friend the committee inquiring into furunculosis and other infectious diseases which afflict freshwater fish is still going strong. It has been sitting for over two years, it issued an interim report in March, 1930, and it expects to issue another interim report "almost immediately."

The Government will then know a great deal about the diseases of fish, though not, apparently, all that there is to be known.

## A Hardy Plant.

Another hardy plant, which will celebrate its third birthday next March, is the committee which is routing out the members of the House of Commons and their politics between 1294 and 1832.

This worthy body has not yet reported. But why should it? Why should it exist at all? Why should historical research of this rather barren nature be carried on at the expense of the public?

## Not a Squeak.

This length of time without a report is not a record. The oldest of the committees has not yet disbursed its wisdom, but is going to do so soon. The next oldest, which is considering the not unimportant subject of Income Tax codification and simplification, went to ground on October 31, 1927, and since then has not given one single squeak of information.

## M.P.'s Christmas in Prison.

Mr. John McGovern, M.P. for Shettleston Division of Glasgow has decided to spend Christmas in prison rather than pay a fine of 10s. imposed upon him for speaking in Glasgow Green without permission. When he was given seven days in which to pay, he told a reporter that on no account would he do so, and would be pleased to spend Christmas in gaol.

## Communal Igloo.

In one vast igloo, or any other structure suitable to the climate, they could hold perpetual conferences, elect each other in turn to various posts, and amuse themselves by trying out on each other every crazy notion of government that has ever occurred to them. This would keep them happy and prevent them from messing about with the perfectly good systems of other nations.

## Looking Back 25 Years.

The new organ at the Wesleyan Church, Wanchai, was inaugurated last night.

The Manchuria Railway Company has opened negotiations, through Mr. Takahashi in London, for a loan of eighty million yen.

No later news concerning the Robert Cooke or the German steamer Wengkok which she went to salve, has come to hand. The ship, perhaps the most powerful in the Far East, was chartered by the North German Lloyd Company for the assistance of the Wengkok stranded near Cape Varella and was insured by the Company for the voyage.

Porter's retirement from the Company's service. — *Hong Kong Daily Press*, Jan. 18, 1907.

## Looking Back 50 Years.

We learn that the Messageries Maritimes' new postal service between Saigon and Singapore, calling at Pulo-Condore, was to be inaugurated on the 8th inst. The line is intended to connect with the English line at Singapore, thus given the French Colony a weekly mail.

**The Guard Who Was Left Behind.**  
A Birmingham to Peterborough excursion train pulled up at Luffenham, Rutlandshire.

The guard, standing at the end of the long train, signalled the "right away" with his lamp.

The train moved on. The guard failed to get aboard. The driver did not know that his colleague had been left behind until he stopped at the next station, three miles away.

The train was held up until the guard, who had run along the line after his train, arrived more than half an hour later.

## EARTH TREMORS IN ENGLAND

BUILDINGS DAMAGED AT MANCHESTER

People Scared From Their Beds

(Reuter's Special Service.)

LONDON, Jan. 17. EARLY this morning six violent earth tremors were felt in England, particularly in the Manchester district where the tremors lasted half an hour, frightening many people from their beds. Slight damage was done to several Manchester buildings.

Accompanied by loud rumblings, five shocks were felt at Swinton, near Sheffield and at Clifton, in Westmoreland, where houses rocked, windows and doors rattled, beds vibrated and crockery "danced" on shelves.

The disturbance is attributed to a Pindolton "fault," a movement similar to that which caused the earthquake scare in Manchester last May.

## A TROTSKY FORECAST

DEATH STRUGGLE FOR THE SOVIET

Should Hitler Gain Power in Germany

(THROUGH REUTER'S AGENCY.)

LONDON, Jan. 16. A gigantic struggle between the capitalist and the Communist system for world supremacy will be fought on German soil, says M. Trotsky, the banished Chief of the Red Army, in an article telegraphed to the Evening Standard by its Berlin correspondent. It will be a cruel, desperate, and merciless fight.

The next few months will decide the fate of the world. If capitalism wins through the Fascist movement in Germany, Bolshevism will be wiped out and the Soviet will fall, but if Herr Hitler falls, Germany will be the platform from which a world revolution will start a triumphant march throughout the world.

A Hitler victory will inevitably mean war against the Soviet.

A Fascist German Government alone will be able to venture on war against the Soviet. It would be in a united front with Poland, Roumania, the Baltic States, and Japan.

The result of such a duel is clear. It would mean terrible isolation and a death struggle for the Soviet under most difficult conditions.

The Red Army should be mobilised against Germany as an act of self-defence should the Fascists attain power.

ROAD VEHICLE LICENCES

INCREASE OVER LAST YEAR

(BRITISH WIRELESS SERVICE.)

RUGBY, Jan. 16. The Ministry of Transport return shows that the gross amount received in payment for licences for road vehicles issued during the 12 months ended November 30, 1931, was over £20,000,000, and exceeded by £200,000 the amount collected in the corresponding period of the previous year.

REDUCED PAY FOR SAILORS

N.U.S. FIGHTING SUGGESTED CUTS

(THROUGH REUTER'S AGENCY.)

LONDON, Jan. 16. Reduction in the pay of British seamen, claimed by ship owners, was considered to-day by the National Maritime Board of London.

It is understood that the new scales of pay demanded by ship owners, mean reductions of thirty shillings monthly in the pay of sailors and firemen on monthly steamer rates, and ten shillings weekly in the case of seamen and firemen on weekly.

Revision of conditions proposed, includes the reduction of overtime cuts in pay, and the conditions of cooks and stewards.

The National Union of Seamen is strongly fighting the suggested cuts.

## INTERNATIONAL RUGBY

PRINCE ATTENDS WALES-ENGLAND MATCH

12 Points to 5 Victory for Wales

(THROUGH REUTER'S AGENCY.)

LONDON, Jan. 17. At Swansea, England's first sportsman, the Prince of Wales, gave an enthusiastic lead to the greatest rugby day of the season by unexpectedly arriving at Pindolton and joining the huge crowd of Welshmen and Englishmen with whom he travelled like an ordinary tripper.

The Prince was fervently greeted by 30,000 spectators. He was introduced to the English team by their Captain, Arnold, while Bassett introduced him to the Welsh players.

Wales kicked off and after a scrum on the English line Moreley scored a try which was not allowed.

England were hard pressed and Solway made a great clearance near the line. England were twice penalised, but Bassett taking the kicks failed to score.

Wales predominated in the scrums but were held up by Barr's magnificent kicks to touch. The Welsh back swept down after a fierce mid-field tussle but Barr courageously dived at their feet and brilliantly recovered the ball and found touch with a beautiful kick.

England attacked for the first time after a quarter of an hour but were driven back by Powell.

Wales had most of the game, but both lines were threatened in turn.

Half-time: England ..... 0 Wales ..... 5

Wales continued to attack on the resumption of play. Boon scored under the posts after the sixth minute and Bassett converted.

Wales were on the ascendancy, and a quarter of an hour from time Boon wriggled free from two opponents and dropped a goal.

Within ten minutes England gave away two free kicks in front of their goal. Bassett scored with the first kick, but his second effort went wide.

England made a final thrust, Webb scoring a try and Barr converted.

Final score: Wales ..... 12 England ..... 5

## SPRINGBOKS BEAT SCOTLAND

EDINBURGH, Jan. 17. At Murrayfield thousands flocked to the ground expecting to see the Springboks meet their Waterloo, and the fact that three of the S. Africans were stricken by influenza on the eve of the match inspired bets of 5 to 1 against the Springboks.

Sixty thousand spectators gathered in a gale-like wind and driving rain to witness the game.

Scotland made a sensational start, Lind running from a half-way, sold a dummy to Brand and scored a great try in the fourth minute. Allen took the kick but did not convert from an easy position.

Then followed desperate nauts, Scotland being bombed in their own half for twenty minutes, and only ruthless tackling saved them. Zimmerman was hauled down on the line by Simmers who dived in to a fierce rush a yard from the line and cleared brilliantly.

The Springboks were pressing at the interval.

Half-time: Scotland ..... 3 Springboks ..... 0

On the resumption of play the Scottish line was subjected to heavy raids. Oiler shot through and scored a try. Oiler taking the kick, however, failed to convert.

The Scottish half-backs were hampered by the greasy ball, and the Springboks took the lead when Craven, bursting from the scrum, scored a try. Brand took the kick but failed to convert. Heavy scrums ensued and at the end both teams were done-up.

Final score: Springboks ..... 6 Scotland ..... 3

## EXTREMIST PLOT IN SPAIN

NIPPED IN THE BUD BY MILITARY

(THROUGH REUTER'S AGENCY.)

MADRID, Jan. 16. An elaborately planned extremist revolt was nipped in the bud when the military swooped down in a fleet of motor cars on Alcala Henares, the birthplace of Cervantes, the author of "The Adventures of Don Quixote."

They arrested 11 civilians and one soldier.

It is alleged that the plotters had planned an attack on the barracks occupied by regular troops and civil guards after which they intended to storm the local prison and liberate the prisoners.

## AMERICA HIT BY ECONOMIC CRISIS

EXPORTS DECLINE MORE THAN 35 PER CENT.

Decrease in Imports of 30 Per Cent.

(Reuter's Special Service.)

WASHINGTON, Jan. 17. ELOQUENT testimony of the extent America has been hit by the economic crisis is contained in the Trade Returns of last year which show that exports declined more than 35 per cent., and imports 30 per cent., compared with 1930.

REPARATIONS CONFERENCE

RUMOUR OF POSTPONEMENT

(BRITISH WIRELESS SERVICE.)

Reims, Jan. 16. With regard to suggestions in the Press as to a possible postponement of the Lausanne Conference on Reparations until after the French Parliamentary and the German Presidential elections, it is authoritatively stated that the British Government is proceeding with its plans on the assumption that the conference will start on January 25.

(THROUGH REUTER'S AGENCY.)

Paris, Jan. 16. The Petit Parisien states that a postponement of the Lausanne Conference for five months in order to arrive at a basis for an agreement between England and France as to War Debts is not looked on with disfavour in French Government circles.

France holds it is impossible to renounce Reparations without a *quid pro quo* from the United States; while Great Britain favours a clean sweep of both Reparations and War Debts without any guarantees whatsoever.

Germany's Frozen Credits.

Berlin, Jan. 16. The negotiations of the foreign bankers concerning Germany's "frozen" short-term credits of \$250,000,000, due on February 20, are nearing a conclusion.

It has been agreed that the first instalment of the portion to be repaid in the next twelve months shall be paid on September 1. It is also taken for granted that the period of renewal of the present standstill agreement governing the remainder of the credits will be for a year, but several weighty questions require solution like the additional security on which American bankers insist, and the problem of the reduction of the rate of interest.

RESTORATION OF PRICE LEVELS

(THROUGH REUTER'S AGENCY.)

Geneva, Jan. 16. An appeal to the great gold-holding countries to take "appropriate action" to restore price levels all over the world, made in the course of a statement by the British Government, has been circulated to all members of the committee dealing with the projected European Union.

The statement opposes watertight Customs Unions, and is of opinion that the heavy contraction in the volume of foreign credits is attributable to the unprecedented fall in price levels, the only remedy for which lies in the hands of the countries which have accumulated

ITALIAN FINANCIAL EXPERTS

VISIT BRITISH TREASURY

(BRITISH WIRELESS SERVICE.)

Rome, Jan. 15. The Italian financial expert, Professor Beneduce and Signor Buti, who reached London last night after conversation in Paris with the French financial authorities, were received at the Treasury to-day and later were entertained at luncheon by the Chancellor of the Exchequer, Mr. Neville Chamberlain.

The party also included the Foreign Secretary, Sir John Simon, and Signor Mameli, Italian Charge d'Affaires in London.

RETIREMENT OF M. BRIAND

(THROUGH REUTER'S AGENCY.)

LONDON, Jan. 17. The Foreign Office has issued a letter from Sir John Simon to M. Briand, dated January 15, in which he states that he has received the news that M. Briand has finally decided not to continue in office and personally regrets this decision.

## NEW UNIFORM FOR BRITISH SOLDIERS?

PLUS FOURS AND TENNIS SHIRTS!

Cross Between a Bishop and Golf Professional

(THROUGH REUTER'S AGENCY.)

LONDON, Jan. 16. Consideration has been caused in Army circles by sweeping sartorial changes suggested for the British "Tommy" in the newly issued annual report on the Army's health. Briefly, the proposed new uniforms consist of plus-fours, gaiters, tennis shirts and low necked tunics, the idea being that the present uniform, with tight collar, is unhealthy and unhygienic.

The War Office stated to-day that local Military Authorities had been asked for their views on the subject of uniform equipment after which, it is presumed, the Army Council will make the final decision. Meanwhile, mess rooms are agog with speculation and inclined to the opinion that the new uniform will make "Tommy" look like "a cross between a Bishop and a golf professional."

FAMOUS INDIAN REGIMENT DISBANDED

REMAINED LOYAL DURING MUTINY

(THROUGH REUTER'S AGENCY.)

New Delhi, Jan. 16. After 156 years' service in the Indian Empire the 4th Battalion of the "First Punjab Regiment" (the late "First Brahmins"), has been disbanded at Agra in the interests of retrenchment.

Raised in 1776, this Battalion took part in the operations against Mahrattas in 1803, and captured Agra and the Gwalior Fortresses. It remained loyal through the Indian Mutiny, and assisted in disarming the mutinous rebels.

The Battalion also formed part of the Shanghai Defence Force during the civil war of 1927.

## WEATHER REPORT.

Yesterday's weather report, forecast and remarks, issued by the Royal Observatory at 6.55 p.m., stated:

The anti-cyclone remains central over Shanghai.

Local Forecast: — Easterly winds, fresh; generally overcast; some drizzle or mist.

STONE-THROWING MOB AT BERRHAMPORE

POLICE FIRE ON CROWD

(THROUGH REUTER'S AGENCY.)

BOMBAY, Jan. 17. One person was killed and two injured as a result of the police firing on a stone-throwing mob at Berrhampoor.

EX-MANAGER OF A.B.C. AWARDED DAMAGES

(THROUGH REUTER'S AGENCY.)

LONDON, Jan. 16. Agreed damages amounting to £15,000 have been awarded to Mr. Arthur Pearce in the King's Bench Division to-day in an action in which Mr. Pearce sued the A.B.C. owners of the famous chain of London restaurants.

Evidence revealed that Mr. Pearce was appointed Managing Director of the A.B.C. in 1927 at a salary of £2,000 plus one per cent. of the net profits, and this was later raised to £3,000 and two per cent. of the profits.

Mr. Pearce complained that he was summarily dismissed by the directors in December, 1929, for "Uncontrolled Expenditure," which he characterised as absolutely false. Since his dismissal he had been forced, in his efforts to secure a job, to offer his services as a Hotel Manager at a salary of £500 per annum.

He also said that Sir Frederick Maer informed him that both Provinces were still remitting Customs Revenues to Government.

Sun Fo added that General Chen Chai Tong was sending his chief of staff to Nanking for instructions regarding the anti-Communist campaign in Kiangsi.

## 300,000 ACRES FLOODED

MISSISSIPPI TRIBUTARY OVERFLOWS

Hundreds of Lives Endangered

(REUTER'S AMERICAN SERVICE.)

SWAN LAKE, MISSISSIPPI, January 16. The rampant Tullahoma River a tributary of the Mississippi, after a long battle against the Grassy Lake dam, has penetrated it at three points and has poured over homesteads in the already partly flooded Tippo basin.

A heavy loss of life is feared. It is estimated that thirty thousand are homeless. The inhabitants were sleeping when a ten foot wall of water, culmination of a week's flooding, inundated them, forcing families to spend the night on roof tops and tree tops.

Water Still Rising.

CHICK DORA, Jan. 17. The menace of the Mississippi floods continues. The water is momentarily rising higher over an area of 300,000 acres, endangering hundreds of lives and swallowing up cottages. So far no loss of life has been reported. Weary rescuers are toiling unrelentingly in ramshackle boats.

Inhabitants of the business and residential sections in Swan Lake are all fighting the floods, while refugees, who are scantily clad, are encamped on the railway line, disconsolate and foodless.

## AGREEMENT AT CANTON!

HU-HAN MIN TURNS MEDIATOR?

(From Our Own Correspondent.)

CANTON, Jan. 17. The political situation in Canton assumed a much brighter aspect with the return of Admiral Chen Chak and General Chang Wai Cheung, Commander of the Air Defence of the Canton Government. The threatening clouds gave way to sunshine when General Chen Tsai Tong accepted the suggestions of Admiral Chen and General Chang in regard to the status of the three executive departments, thus restoring harmony between the military leaders on the one hand and the Navy and Air Force on the other, at least for the time being.

The sharp watch maintained at Fort Boca Tigris on the movements of Admiral Chen Chak's flotilla has been relaxed.

## UNIFICATION TALKS AT STANLEY

Mr. Hu Han Min had a series of conversations with a number of Canton leaders and the Nanking delegate, Mr. Yu Yu Jen, yesterday at his residence at Stanley. China's politics generally and particularly relations between Canton and Nanking were thoroughly discussed. Throughout the conversations Mr. Hu played the part of mediator between Nanking and Canton. As a result of yesterday's parley Mr. Hu authorised his secretary to issue a statement as follows:—

"I believe that the most pressing tasks before the Nanking Government are 'Red' bandit suppression and a campaign against the Japanese invasion. The absence of Marshal Chiang Kai Shek, Mr. Wang Ching Wei and myself from Nanking will not in any way impede the work of the Central Government, as there are still a large number of responsible leaders at Nanking. I am now suffering from physical illness and need further recuperation. Therefore I can't go to the capital at least for the time being."

## KWANGTUNG LOYAL TO NANKING?

STILL REMITTING CUSTOMS REVENUES

(THROUGH REUTER'S AGENCY.)

NANKING, Jan. 16. In reply to enquiries from Press representatives, Sun Fo declared that Kwangtung and Kwangsi Provinces had not declared their independence of the Nanking Government.

He also said that Sir Frederick Maer informed him that both Provinces were still remitting Customs Revenues to Government.

Sun Fo added that General Chen Chai Tong was sending his chief of staff to Nanking for instructions regarding the anti-Communist campaign in Kiangsi.

## JAPAN'S REPLY TO U.S.A.

"AMERICA'S SEDULOUS CARE" APPRECIATED!

SEVERANCE OF SINO-JAP. DIPLOMATIC RELATIONS LIKELY

(THROUGH REUTER'S AGENCY.)

NANKING, Jan. 17. According to a statement by Fu Ping Sheng, the Vice-Minister of Foreign Affairs, China has decided to invoke Article XVI (Economic Sanctions) at the next League Council meeting on January 25, this action having been approved by the C.E.C. and the C.P.C.

Fu Ping Sheng added that China will also request the calling of a conference of the signatories to the Nine-Power Treaty, and it is indicated that the severance of diplomatic relations with Japan is likely.

W. W. Yen will be China's chief delegate at the League's next meeting.

## COLDLY POLITE ANSWER

TOKYO, Jan. 16. Mr. Yoshizawa, this morning, handed Mr. Forbes Japan's reply to Mr. Stimson's recent note. It is coldly polite, the concluding words being:—

"It is agreeable to be assured that the United States Government is devoting to a friendly spirit, such sedulous care to a correct appreciation of the situation."

The note re-affirms the "open door" policy and refers to the Nine-Power Treaty, saying that the present distracted state of China wasn't contemplated by the high contracting parties at the time of the Washington Treaty, and that, although this can't affect its binding character or the stipulations of the Treaty, it may, in material respect, modify their application, since they must necessarily be applied with reference to facts as they exist.

## JAPAN AND RUSSIA

TOKYO, Jan. 16. Mr. Yoshizawa has admitted that M. Litvinov sounded him about a non-aggression pact, when he was passing through Moscow on December 31, but the proposal has not yet been submitted to the Cabinet.

The general belief is that Japan will decline, as she considers the Kellogg Treaty, to which both Japan and the Soviet are signatories, is sufficient. Moreover, Japan has no such pact with any other Power, and has no intention of violating Soviet territory.

## LATEST CHINESE COMPLAINT

GENEVA, Jan. 16. "Flagrant violation of solemn undertakings and complete con-

tempt of the Council's resolution," are alleged against Japan in the course of the latest Chinese note complaining that Japanese airmen bombed Chinchow on January 10.

## 32 JAPANESE SOLDIERS KILLED

TOKYO, Jan. 16. A report from Chinchow states that 32 Japanese soldiers, who were returning to Chinchow from Chini, are now known to have been wiped out as the result of an attack by 200 bandits who set an ambush for the small force near Chini.

The bandits burned the bodies, and consequently, there is no trace of Japanese remains.

## NO TERRITORIAL AMBITIONS

(BRITISH WIRELESS SERVICE.)

RUGBY, Jan. 15. As the result of a conversation between the Foreign Secretary, Sir John Simon, and the Japanese Ambassador on January 8 in regard to the situation in Manchuria, the Japanese Ambassador called at the Foreign Office yesterday and conveyed from his Government an express assurance, in reference to Japan's disclaimer of territorial ambitions in Manchuria and of her intention to respect the principle of the "open door" and of the Nine-Power Treaty.

## BANKING AGREEMENT REACHED

(THROUGH REUTER'S AGENCY.)

NANKING, Jan. 16. It is learned that Government and a Shanghai banking group have reached an agreement, whereby the suggested moratorium of domestic bonds, the possibility of which has been a cause of consternation in financial circles for some days past, has been staved off, at any rate, for the present.

It is reported that Government has agreed to halve the present expenditure of twenty-four million dollars, but, since its revenue is only seven million dollars, bankers will guarantee the remaining five million.

It is now authoritatively learned that Government has definitely abandoned the moratorium proposal.

CLOSE RACE FOR CHAMPIONSHIP HONOURS: TWO VALLEY TEAMS IN THE LEAD.

### BURNETT'S SECOND "HAT-TRICK": KOWLOON JUNIORS WIN AGAIN.

Another full programme of cricket matches was carried out over the week-end, six of them being league engagements. The Indian Recreation Club scored a convincing victory over the Royal Navy by 10 wickets and by taking full points from Hong Kong Cricket Club at Happy Valley, Craigengower Cricket Club tie with the Indians for first place in the senior division, each of them obtaining maximum points for three matches played.

Kowloon Cricket Club won easily against the University in the second division and thus retained pride of place in the junior section. A feature of this match was the excellent all-round display by F. S. W. Smith who came off with flying colours with both bat and ball.

The positions of the teams now stand as under:—

## RUGBY.

## THE INTERPORT TRIAL.

## GOOD WIN FOR UNITED SERVICES.

The Interport trial game between the Services and "Probables" at Sookinpo on Saturday resulted in a win for the former by 10 points (two goals and three tries) to 6 points (1 penalty goal and 1 try). The result was very much as expected as the Services had a very strong XV in the field yet despite the fact that they won so comfortably, the game was probably one of the best seen for many a long day. In fairness to the "Probables" it must be said that two of their best forwards, McElroy and McEllan, could not turn out owing to injuries sustained in earlier matches.

After about two minutes play the Services opened the scoring and by the interval they were leading by 13 points to 6. Their first try was the result of a touch-down following a *maul* in front of the Club goal while other players came from Pizey converting. Hubback's try while Stevenson added goal points to Ryder's effort. Robertson kicked a penalty goal for the Club while Law scored a try.

In the second half the Services continued to monopolise the play when Hubback and Ryder each secured one more try for them.

The teams were—  
United Services—Lt. Gosling (Suffolk), Lt. David (Medway), Sta. Packer (Cumberland), Lt. Stevenson (A. & S.H.), Lt. Keith-Murray (A. & S.H.), Lt. Ryder (Medway), Lt. Charsley (Hermes), Lt. Com. Crick (Marazion), Surg. Lt. Broonan (Cumberland), Lt. Stevens (3/9 Jats), Lt. Prior (R.A.), E. R. A. Doggett (Hermes), Lt. Pizey (Medway), Lt. Watson (Bruce), Lt. Hubback (Hermes).

## MEDWAY BEAT KOWLOON.

Kowloon Rugby Club entertained H.M.S. Medway in a friendly when the latter won by 14 points (three tries and a goal) to 3 points (a try).

The sailors were definitely the better side and scored first blood when Fabry scored an unconverted try. Jones equalised for Kowloon.

In the second half, however, the sailors asserted themselves and scored through Archer, Fabry and Spring. Fabry converted his own effort but the kick at goal as a result of Archer's try failed, as did the one which followed Spring's.

The teams were—  
Kowloon—D. Black, A. Broken-shire, Hutchinson, Owen, Easterbrook, D. E. Kilby, D. J. S. Crozier, J. E. H. Cogan, Poirer, G. G. Bonham, J. Riddell, S. MacNider, J. E. Wilson, Jones and L. W. Tiplie.  
H.M.S. Medway—Hall, Archer, Kerr, Samways, Fabry, Northwood, Dilgeroth, Smith, Tyrwhitt, Husey, Millett, Spring, Skinn, Lomas and Knight.

## LOCAL FOOTBALL RESULTS.

## FULL PROGRAMME ON SATURDAY.

## NAVY LEADING IN SENIOR DIVISION.

A programme of eight football matches, which included one in the Chinese league, was carried out under ideal weather conditions on Saturday. With the Argyls sharing points with the Police in the premier division of the official league, the Navy, who scored a 2-0 win over Kowloon Football Club, are now occupying pride of place in this section of the competition. One unfortunate feature of the match between the Highlanders and the Police, was that the game was marred by much rough play and the referee had to pull the players up on several occasions for displays of bad temper on the field. The Club beat Club de Recreo by the only goal scored in the match while St. Joseph's went down to the Borderers by 5 goals to 2.

The match which commanded attention in the second division was the meeting of the Borderers and the Argyls but the latter fully justified the expectations of their supporters by romping home winners by two goals to nil. Kowloon beat the University fairly comfortably while the Club seconds were no match for the Navy. The game between the R.A.O.C. and 12th Heavy Battery, Royal Artillery, was postponed owing to the fact that the former were unable to raise a side.

Two of the three matches in the Chinese league were postponed, the remaining game resulting in a 4-0 win for Eastern over Sung Ching.

## LESSON SERMON.

## FIRST CHURCH OF CHRIST, SCIENTIST, HONG KONG.

"Life" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, January 17.

The Golden Text was—"This is the record, that God hath given to us eternal life, and this life is in his Son." (1 John 5: 11).

Among the citations which comprised the Lesson-Sermon was the following from the Bible—"How excellent is thy lovingkindness, O God! therefore the children of men put their trust under the shadow of thy wings. They shall be abundant, they shall be satisfied with the fatness of thy house; and thou shalt make them drink of the river of thy pleasures. For with thee is the fountain of life, in thy light shall we see light." (Ps. 36: 7-9).

The Lesson-Sermon also included the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy—"Life is without beginning and without end. Eternity, not time, expresses the thought of Life, and time is no part of eternity. One ceases in proportion as the other is recognized. Time is finite; eternity is forever infinite." (p. 498).

## ORDINANCE TO BE AMENDED.

The *Gazette* contains the draft of an Ordinance to amend the Police Force Ordinance, 1900.

This Ordinance substitutes a new section for section 32 of the principal Ordinance which made provision for the appointment by the Governor, on the application of any household, of any member of the force to do special police duty in and upon the premises of the applicant on payment for the same of the whole of the pay and allowances of the member of the force so appointed.

Applications for such services are not always made by householders, they are sometimes made by clubs or institutions on occasions required.

The detailing of members of the force for such purposes seems rather a matter for the Inspector General of Police than for the Governor.

Moreover, the provision as to the payment of the whole of the pay and allowances of a member of the force who might be detailed only for a few hours special duty seems unreasonably restrictive.

## UNDERGROUND GARAGE FOR LONDON.

### TACKLING CITY'S MOTOR PROBLEM.

#### PLAN TO HOUSE 500 CARS.

The Corporation of the City of London have decided yesterday to take steps to consider the construction of an underground garage as a means of solving the shortage in the City of London of parking-places for motorcars. The question was referred to the Streets Committee for consideration and report.

The author of the scheme, Mr. H. Edgar Bowles, proposes that accommodation should be provided for 500 or more cars. The underground garage would be approached by a gentle gradient from Moorgate-street and Bloomsfield street.

Turntables could be used where necessary, and other amenities for motorists provided. Cars would be left for an indefinite period and a small fee charged.

#### Matter of Urgency.

Mr. Bowles, who is a member of the Corporation, told a press representative of that the provision of proper accommodation for cars in the City is a matter of urgency. There is considerable anxiety because side streets, cul de sacs, and courts in the City are daily filled with private cars.

The public parking station at Finsbury-circus does not meet the situation. A time limit of two hours is enforced and this makes the Circus useless to City business men.

The need for more garage accommodation is reflected in the fact that a very large part of the daily work of the magistrates at the Mansion House and Guildhall, Surrey, B. & S., Jan. 27.

## WIFE WANTS

£1,200,000  
GIFT BACK.

### PENNILESS.

Mr. John Gellatly, a former New York millionaire, aged 73, has died penniless in New York. He had spent his entire fortune on a magnificent art collection, which he presented to the nation two years ago.

His widow, who was forced to-day to borrow money to pay the funeral expenses, said Mr. Gellatly had a passionate ambition to be thought a public benefactor, and he had ruined himself to attain it.

He spent at least £1,200,000 on the collection, which included some of the best works by Whistler, Sargent and other modern masters, besides medieval treasures, and it was accepted by Congress for a national gallery at the Smithsonian Institution.

Mrs. Gellatly will appeal to Congress to return this gift on the ground that she is destitute.

"While posing as a philanthropist, my husband was so impoverished, that he could not pay the rent of my apartment," she stated; and during the past two years, since he had presented his pictures to Congress, she had received only £100 from him for living expenses.

## TO REMEMBER WILLIAM THE CONQUEROR

### A QUAIN LEGACY.

The strangely worded will of Mr. Percy Thomas, a Croydon chemist who left £15,000, was read in the Probate Court.

Some house property which he had inherited from his father he left to his brothers. The rest of the estate was bequeathed to endow beds in St. Bartholomew's Hospital. He directed that the surplus income shall accrue year by year, to increase the number of beds in the hospital.
